Launched in 2004 Glamtech are the UK's leading hairdressing scissor brand. We supply professional scissors from student level to experienced senior stylist. Our products are available in thousands of outlets across Europe and USA. We also create exclusive and own label hair tools, beauty tools, accessories and packaging for some of the world's leading retailers. We make sourcing simple, fast and efficient.

There is no limit to the range of items so this guide is not a comprehensive list of options. It is simply some inspiration to get started.

Items we have supplied to date include: Hair scissors, tweezers (many styles), manicure and pedicure tools, nail tools, hair brushes, combs, shaving equipment, beauty bags, cases, wallets, tool belts, display cases, hair clip sets, rollers and packaged sets.

How We Work

After our initial conversation we will supply suggestions and mock-up ideas within a few days. Samples are usually available between 1-30 days. Production can be anything from 3 weeks. We develop and supply faster than our competitors. Large minimum order quantities are not required with many items starting at 50 pieces.

Let us know what you are interested in and we will show you how easy it can be!
